Valley City State University Scientists Join Advisory Group

JAMESTOWN –Seven science faculty members from Valley City State University have joined the North Dakota Climate Solutions Partnership Scientific Advisory Group.

“We’re pleased to have VCSU science department faculty sign on to this effort. These scientists have a clear understanding of the issues we face as a result of global climate change,” said Mindi Grieve, ELPC Government Relations Specialist, and NDCSP member.

The VCSU scientists include:

- Anderson, Bob (2005), Assistant Professor of Science. B.S., Ph.D. South Dakota State University.
- Bilski, Jerzy (2008), Assistant Professor of Science. B.S., M.S. University of Technology and Agriculture in Poland, Ph.D. Central Agricultural University of Warsaw, Poland.
- DeLorme, Andre (1996), Associate Professor of Science. B.A. Valley City State University, M.A. Bemidji State University, Ph.D. University of Minnesota.
- Hoff, Donald (2002), Associate Professor of Science. B.S. Dickinson State University, M.S. North Dakota State University.
- Kuipers, Gilbert (1981), Associate Professor of Science. B.S. North Georgia College, Ph.D. Georgia Institute of Technology.
- Stickler, Joseph (1981), Professor/Chair of the Department of Science, Chair of the Division of Mathematics, Science and Health & Physical Education. B.A. Ohio Wesleyan University, M.S. & Ph.D. University of Illinois.
- van Gijssel, Hilde (2002), Associate Professor of Science. M.S., Ph.D. Leiden University (the Netherlands).

The VCSU scientists join more than twenty other colleagues from around the state. The scientists agreed to a Statement of Principles describing their common beliefs about the Earth’s climate.

To view a complete list of the NDCSP Scientific Advisory Group members and the Statement of Principles, please log on to www.ndclimatesolutions.org.

###

The North Dakota Climate Solutions Partnership (NDCSP) is an alliance of conservation, faith-based, business, environmental and agricultural groups working to build state and federal support for solutions to global climate change. NDCSP members include the Environmental Law & Policy Center, Ducks Unlimited, Prairie Climate Stewardship Network, North Dakota Farmers Union, National Wildlife Federation, Pew Environment Group, and the Foundation for Agricultural and Rural Resources Management and Sustainability (FAR^{RM}S).
